per person

### Tour Description

#### Description Summary:

When the night falls down over the jungle everything changes. Enjoy the wildlife, views and sounds of the Amazon on our night boat ride adventure.

#### Full Description:

The Night river activity is one of the most silent and peaceful things to do in Puerto Maldonado. For this experience travelers stay on the boat all the time. The river is the perfect place to appreciate the majestic Amazon sunset with the change of colors in the sky. When the night falls it is the ideal moment to get closer to the riverside to find wildlife. The most common animals are the white caimans and the capybaras (the biggest rodent in the world). Usually they move in packs of 4 or 5.

After the caiman and capybara search, it is time to turn off the boat engine and listen to the night noises of the jungle.

After this activity we will return to Puerto Maldonado.

#### Know before you go:
